Compress the AIR,
extend the POWER

After Show Report

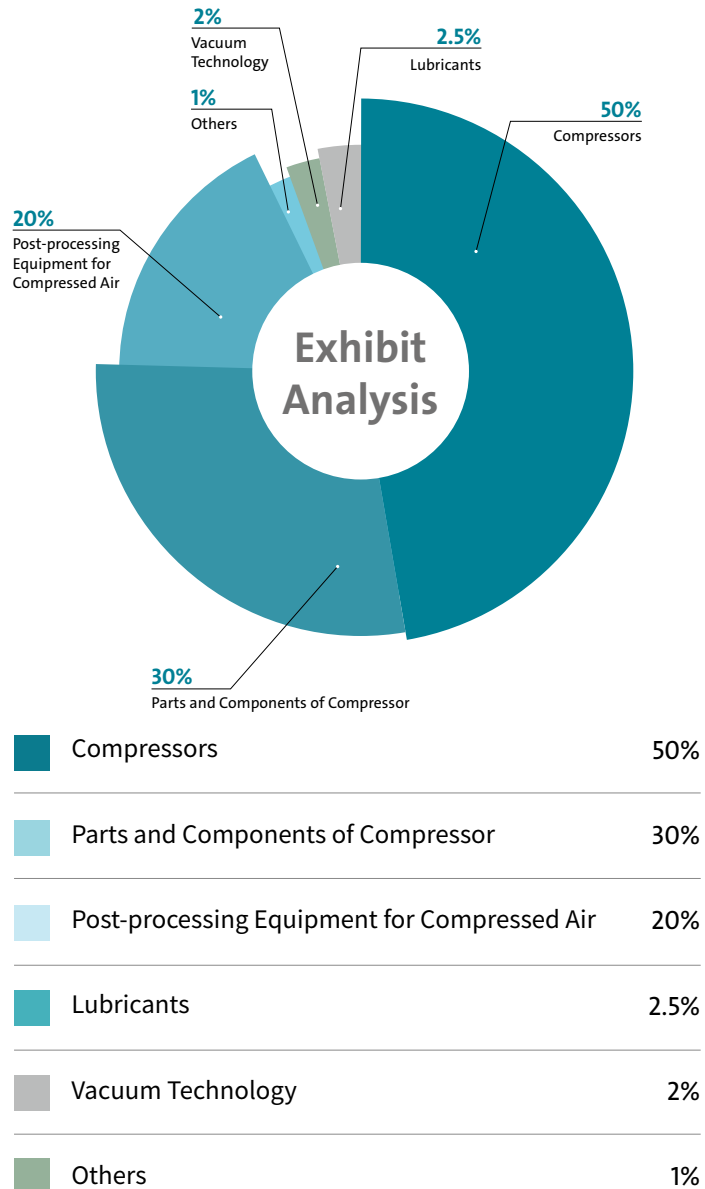

Compress the AIR, extend the POWER

With the continuous advancement of industrial automation control technologies, the demand for compressed air in industrial production is becoming increasingly widespread. ComVac ASIA 2024, the industrial event of the year, returned grandly. This year's exhibition brought together over 300 top domestic and international companies to showcase the latest achievements in compressed air and vacuum technology. The exhibition encompassed air compressors, process compressors, special compressors, compressor components, compressed air post-treatment equipment, lubricants, and auxiliary equipment related to the industry, highlighting the innovation within the industry. In addition, a series of professional forums and seminars were held after the exhibition, inviting industry experts and scholars to gather together for in-depth dialogues and exchanges on hot topics, technology frontier dynamics, and market trends within the compressor industry. This facilitated profound communication and collaboration both within and outside the industry, injecting strong momentum and vitality into the booming development of the compressor industry.

Exhibitor Testimonials

ATLAS COPCO (SHANGHAI) TRADING CO., LTD. Jane Li, Communication Manager

As a benchmark for special compressor exhibitions in Asia, ComVac has provided us with an excellent platform for communication. It offers a valuable opportunity to gain insights into the latest developments and trends in the compressor industry, as well as to discuss future industry developments with industry peers.

BAUER KOMPRESSOREN SHANGHAI CO.,LTD Una Liu, Marketing Manager

With a diverse array of new products on display, this year's exhibition maintained a high level of professionalism, among both exhibitors and visitors. The atmosphere at the event was even more vibrant than in previous years. Whether between exhibitors or between exhibitors and visitors, the exchanges were more professional and candid. This undoubtedly lays a solid foundation for the further development of the industry. We are grateful to ComVac ASIA for providing us with such an opportunity, and we wish the event continued success and growth. Let's meet again next year!

SALES BRANCH COMPANY OF IHI-SULLAIR COMPRESSION TECHNOLOGY (SUZHOU) CO., LTD Mike Yang, General Manager

Through this exhibition, we have deeply felt the importance of technology in driving the development of the industry. In the future, IHI-SULLAIR will continue to focus on the development and production of more energy-efficient and high-performance centrifugal compressors to meet the diverse needs of our customers, contributing to the advancement of the industry.

Exhibition Highlights

"Emoji Guess Puzzle" X "Time To Shine"

The lively atmosphere and the creative emoji word-guessing game attracted numerous participants who love word challenges, with many enthusiastically joining the activity on-site. They showcased their wisdom and quick reflexes, winning a variety of rich prizes carefully prepared by the organizers. In the ComVac ON9 Hall GAME ZONE, the interactive game "Time to Shine" led the audience to demonstrate their skills and challenge various movement forms, unlocking unlimited potential. The game brought endless joy and a unique experience to all involved.

Thanks to everyone involved in last week's exhibition.

Working alongside Sendfin, we had some fantastic conversations and made some great connections!

🌟 Exciting News! 🌟 Small booth but large ideas!

...ed to announce our participation in [ComVac ASIA](#) 2024 at Shanghai. This event is a fantastic opportunity for our latest innovations for a better compressed air solution.

...both N5, D5-1 for live demonstrations, insightful discussions and more that we have to offer.

...cant heatless dryers, to the most advanced refrigerant, through compressed air filters or package. Don't miss the fantastic opportunity to discuss your needs with our market player focused to tailor-made and offer solutions.

...our calendars and stop by to say hello. We can't wait to see you!

● Our Postdoctoral Research Associate, [Yang Lu](#), is attending [ComVac ASIA](#) next week! This is a trade show for innovations in compressed air and vacuum technology. Yang will be exploring the latest advancements and connecting with industry leaders to discuss our ongoing research at the Centre for Compressor Technology.

🔥 If you're attending ComVac, don't miss the chance to connect!

📩 Reach out to us here or directly message Yang to arrange a meeting. We look forward to collaborating and sharing insights with other professionals passionate about compression technologies.
